compositionality the significant difference international symposium compos 97 bad malente germany september 8 12 1997 revised lectures 1. Clarifications. There are many theses called "the principle of compositionality"<sup>TM</sup>. The following can serve as a common reference point: (C) The meaning of a complex expression is determined by its structure and the meanings of its constituents. Important variants of the compositionality principle will be presented below in a form most similar to (C) to facilitate comparisons. []

compositionality the significant difference international symposium compos 97 bad malente germany september 8 12 1997 revised lectures In semiotics, a sign is anything that communicates a meaning that is not the sign itself to the interpreter of the sign. The meaning can be intentional such as a word uttered with a specific meaning, or unintentional, such as a symptom being a sign of a particular medical condition. Signs can communicate through any of the senses, visual, auditory, tactile, olfactory, or taste.

compositionality the significant difference international symposium compos 97 bad malente germany september 8 12 1997 revised lectures There is an interesting sense in which standard polygamy (i.e., polygyny or polyandry) presupposes the binarity of marriage. In standard polygamy, there is one individual, A, who stands in a marriage relationship to each of a plurality of other individuals, the Bs. But the marriage relationships themselves are binary: A is married to each of the Bs, and the Bs are not married to each other ...
